

Cheers to 2016!

Cheers to ICC's success in 2016! We celebrated the completion and start up of Balcones, USA Today's #1 craft distillery in the US, and proud to be selected as turnkey suppliers for Al Capone's favorite whisky brand distillery. ICC contributed to a cleaner environment by supplying and financing CO₂ recovery systems for sustainable craft brewing. We reduced healthcare costs through the development of a series of optimization projects and upgrades for pharmaceutical production.

ICC proudly supported locally sourced produce by optimizing tomato processing and turnaround time for Olam in California.

Cheers to a successful 2016 and to a prosperous 2017!
